DETAILED ACTION

Drawings

1. The drawings were received on 09/8/2003. Figures 2 and 5 of these drawings are considered informal.

Reason For Allowance

2. Claims 2-39 are allowed.
3. Following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 2, 31 and 35, which include a (claim 2) liquid positioned relative to the bottom surface such that capillary force of the liquid holds the micromirror on the support member; (claim 31) the magnet is a mixture of zirconium, cobalt and nickel; (claim 35) the support member being a horizontal elongate member, the elongate member having an elongate edge defining the member end, the bottom surface having an elongate upwardly-disposed surface, and the elongate edge being disposed in the upwardly-disposed surface.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
